Heavy Duty Hazardous Cabinets

GENERAL SPECIFICATION FOR THE CABINETS SHOWN ON THESE TWO PAGES

- » Designed and manufactured to meet **Fire Classification A2-s2 d0 to EN13501-1:2018**
- » Manufactured from 1.2mm sheet steel for extra strength & improved protection from fire penetration
- » A robustly constructed range of cabinets providing safe storage for flammable liquids
- » Base of each unit is fitted with a large capacity removable sump to contain any spillage
- » All formed welded seams
- » Doors are fitted with vertical reinforcement panels to prevent distortion

FROM ONLY
£590.95

- » Produced with return flange around doors & joints to prevent the passage of flame
- » Fitted with all metal security locks & two keys
- » Adjustable galvanised shelves to 75mm centres. Shelves are also reversible which allows them to be used as a tray
- » Floor stands are available for the five smallest sizes, raising the units by 450 mm

Safety Cabinets for Flammable Substances

- » Exceed the requirements of HSG51, 2015 (HSE Storage of Flammable Liquids in Containers, 3rd Edition)
- » Meets the requirements of HSG140, 2015 (HSE Safe Use & Handling of Flammable Liquids, 2nd Edition)
- » 10 minute fire tested at up to 1,300°C (independent testing)
- » Internal temperature during fire test kept below the auto ignition temperature of vast majority of flammable liquids
- » Can help justify storage of more volume of flammable liquids than HSG51 would normally allow
- » Fully load tested
- » Self-closing models have fusible links that close the doors at 74°C
- » Dual wall construction with insulating air space
- » Fully welded construction with 1mm steel used throughout
- » 3 point heavy duty stainless bullet self-latching doors – positive door closure without manual rotation to ensure latching
- » Leak proof integrated sump & 2 air vents with flame arresters built-in

- » Concealed self-close mechanism – release doors on self-closing models from any open position & the door will shut & latch
- » Adjustable shelf positions on 76mm centres, each with 156kg UDL rating
- » Continuous piano hinges on doors
- » Shelves direct leaks to back & bottom of cabinet
- » Adjustable levelling feet
- » Built in grounding connector

Storage Vaults

- » Designed to comply with the Flammable Liquid Storage Regulations (1972) as appropriate & the Factory Inspection Guide HSG51
- » Adjustable vent meets the requirements of both flammable storage (vents closed) & agrochemicals (vents open)
- » All welded units conforming to the A.P.E.A. construction requirements
- » Provide a half hour protection from collapse & the passage of flame
- » Multi-lockable for high security & fitted with a lift up action lid assisted by gas struts
- » For extra protection & fork lifting the units have skids on the base
- » Middle shelves pivot on models SSV01Z & SSV02Z to enable larger items to be stored on the base level
- » Model SSV03Z has a central partition & four shelves - the two middle shelves fold away & the two top shelves are made in 3 sections - the back section is fixed in position & the front two sections removable
- » All models have a liquid-tight base to contain spillage

N.B. A Fork Lift will be needed to unload these vaults

Galvanised Secure Stores

Manufactured in accordance with PPG 26 regulations as per the requirement of the Environment Agency

i Information
HAZARDOUS STORES TO MEET ALL YOUR STORAGE NEEDS

- » Side & roof panels are manufactured from 0.6mm cold rolled corrugated galvanised steel & for additional strength the unit has a structural frame which is fitted at each end & at the centre of the unit
- » The sump is manufactured from 2mm structural grade galvanised steel & is fitted with base plinths to keep the underside of the units out of contact with the ground
- » The double doors, fitted with 3 upper & 3 lower vents in each door, are located on one of the short sides of the unit & are secured with a Kale mortis lock with cylinder (152R)
- » Complete with two sets of shelves (60kg shelf U.D.L.) on each of the long sides of the unit
- » Fork lifting pockets are underneath the units

This unit will be delivered by an articulated vehicle, therefore please ensure that a vehicle of this size can access your premises before ordering and advise us accordingly. You will require an appropriate size-capacity fork lift truck or Hiab unit to offload this item from the delivery vehicle. **IMPORTANT:** our standard delivery doesn't include any offloading due to insurance restrictions - if you require this service then please call for details. The unit must be positioned on a solid level surface, ideally concrete of circa 150mm in depth and 100mm bigger overall than the unit. The purpose of this is to ensure the unit does not settle unevenly when placed in position.

Troax Cage

Troax Cage is a quick and easy theft deterrent, suitable for warehouses or on construction sites. It has a flexible and modular construction, and all depths are possible from 1200mm up to the infinity. Also the depth can be extended as and when needed using additional modular panels and brackets. The unique design of the hinge enables a 270 degrees opening of both doors.

Single & Double Lockers

Single and Double Lockers customise storage spaces depending on the specific need required. The single doors can be created out of eight standard wall panel widths. Both the single and double lockers can be built out of UR350 panels (19x19mm framework) or UX450 panels (20x30mm framework). Securing plates for padlocks are standard.
